# WELCOME TO WOOD SAINTS

## A new community wood recycling business saving resources and creating jobs

Wood Saints collects usable waste wood from builders and construction sites which is then prepared for sale to the public, community groups and trade. You might see our vans driving around loaded with anything that can end up in a skip such as pallets and scaffolding boards to off cuts and floorboards.

We aim to recycle or reuse everything we collect. This work enables us to create jobs and training opportunities in wood recycling for local people.

Come along to **The Wood Depot** in Wolverhampton where you can buy timber and ironmongery for

DIY projects, pick up gifts or unique furniture for your home or garden, place an order for made to measure items, or even sign-up to volunteer with us!
